## **Abstract**

**DECENTRALIZED PLATFORM:** a decentralized trading protocol that allows different types of cryptocurrencies to be swapped & exchanged.

**Photonswap.finance is a Decentralised Exchange Protocol,** a platform where to swap & trade tokens and coins safe & fast, based on Cronos EVM Chain. Bringing swap & exchange of cryptocurrencies to a clean trading environment. Brings investments of kind products to a high APY earnings percentage and in a fair distributed system of farming & staking. Trading digital currencies on Photonswap is an exciting approach with no execution delays or unnecessary distractions. Every trade is instant and relies on one of the decentral smart contracts that are safely deployed on the blockchain. An easy tool swap coins & tokens and provide liquidity to pools to satisfy the power of safe earnings & profits.

## WHAT IS THE CRONOS NETWORK?

Photonswap will be one of the major AMMs to be released on the upcoming Cronos EVM-chain. The Cronos chain, developed by Crypto.com, will launch the long-awaited mainnet version of their ecosystem on the 8th of November. If the recent development in ecosystems such as the Binance Smart Chain, Fantom, and Avalanche are any indication on the potential growth of new ecosystems, the coming months could see a great number of new (innovative) projects launched on the Cronos network. On top of that, the Cronos ecosystem will boast low fees and direct integration with the Crypto.com exchange.

# Photonswap Ecosystem

## Vision

To become the go-to DeFi ecosystem for all smart-contract services including, but not limited to: escrow, time-release, token locks, cross-chain integration, and other DEX solutions.

## Mission

To automate and simplify the transaction process between people and/or organizations around the world through the use of well-built decentralized finance applications, eliminating the need for middlemen and 3rd party intermediaries.

Photonswap is poised to become the go-to decentralized finance (DeFi) solution for liquidity lock, LP mining pool, syrup pool, auto-mated smart-escrows.

Being tightly coupled with DexPad.IO, projects launched on DexPad will provide liquidity on photonswap.

### REWARDS PROGRAM

Earn PHOTON rewards for participating in our liquidity pools!

Additionally, we are launching a Yield Generation (Farming) platform.

### LIQUIDITY LOCKER

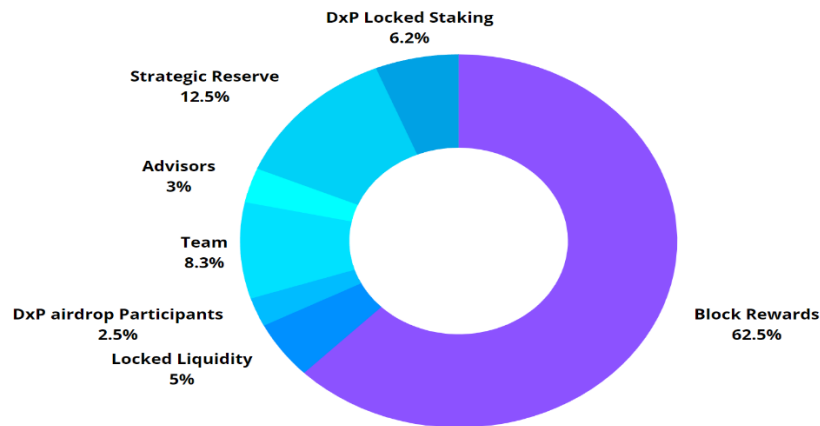

Analytics, Portfolio Management, Charts, liquidity events, and many other important datasets can be accessed via our Trading Tools platform.

### MARKETPLACE

In order to allow third-party developers to create awesome NFTs on Cronos, we are launching the CRX NFT Marketplace.

Why Photonswap? Why now? Decentralized finance represents the future backbone of the global economy and the need for a trustless way to transact with each other is becoming ever more apparent.

## I CONCLUSION

With innovative projects penetrating into the Blockchain Industry everyday, there are a wide range of opportunities for users to participate in the launch of early-stage projects. These provide maximum growth potential to early supporters belonging to the vibrant community of DeFi. Currently, the focus is transitioned towards building a mature platform that can offer projects with a comprehensive approach to revolutionize space. Photonswap is the Decentralized Native Automated Market Maker (AMM) based on the Multiple blockchains

Its unique features and commitment to decentralization place it among the highest tiers of AMMs, and its principle of putting the community first will ensure mass adoption. The novel idea of rewarding its token holders will enrich the token sale experience while the platform itself is developed to serve the best interests of teams, investors and the community. The goal of the project is to grow into a fully decentralized, reputable AMM ecosystem that supports teams as they bring ideas to life.

We welcome our supporters and the community to help in achieving this goal and become a part of our grand vision.
